*certificate, the effective date was changed to the revision date. Therefore the effective date listed on the PCO certificates were not when the client was first certified to the NOP (as required by the NOP) but when the certificate was updated. **Corrective Action:** PCO has revised their work procedure (9/10/07) for issuing an updated certificate. The effective date for when the client was first certified to the NOP will now remain on the certificate and the revised date of the certificate will be listed. An example of the revised certificate and procedure was submitted with the corrective actions. PCO also mentioned that corrected certificates will be issued to all existing clients by December 31, 2007.*
